

# Lighting Your Wedding.

# Up-lighting

For a great start, take some simple up-lighting in each studio. Add some colour and excitement to your wedding.

The lighting colour is adjustable throughout the day, so if you want a different colour in the evening to the one you had for your ceremony, just let us know.

# Festoons

Festoon lighting brings Studio One to life.

Lighting levels are adjustable throughout the day.

We recommend them bright during the earlier part of the day, decreasing as the event moves on to create a cosy intimate feel in the evening.

# Creative Extras

Your day should be unique and we're here to help turn that into reality.

Please do let us know of any lighting ideas and inspiration you might have. Below are some elements that make a huge difference to the look and feel of the venue.

# ONE BIG ADVENTURE

## Floral

We can't tell you enough how important floral lighting is.

Ensure your display gets the attention it deserves with the right lighting.

## Highlights

Got a great cake, menu board, feature area?

Ensure you show off your design element with the some great spot lighting.

## Ceremony

Make sure the big moment is not let down by the lighting; make sure that friends, family, and photographer get unforgettable pictures.

# JUST HITCHED

## Statement

Edison drops above the ceremony area give focus to your ceremony and top table area and look great on the photos. Straight line or uneven lengths: the choice is yours.

## Party

Get the party started with some moving heads in Studio 2. Pre-programmed or sound-to-light options ensure that you choose the price point, plus we throw in a hazer to get that club feel.
